CHANNEL RESERVE

YOU'RE INVITED

Out of stock? Check the network before you say no.

A private parts-availability network for automation distributors.

FOUNDING MEMBER INVITATION

Out of stock doesn't have to mean out of the deal.

Channel Reserve lets authorized distributors check whether one part is in stock in the network and request quotes. Names stay private until a quote is accepted. No member ever sees your quantities.

- ✓ **Works with a CSV export from any ERP**
- ✓ **Channel AI crosses when nobody has it**
- ✓ **Each member quotes its own price and terms**
